## Investment strategy

The Trust generally gains its investment exposure by investing in a portfolio of domestic cash investment managers.

The Trust is designed to provide investors with returns higher than a fund invested purely in cash, and in excess of the Bloomberg AusBond Bank Bill Index.

The Trust aims to be fully invested with exposure to cash and short-term securities at all times.

The underlying investments of the Trust may comprise of bank bills and other short-term money market securities, such as short-term loans to banks, corporates and Australian governments, which are considered to be secure investments.

## Quarter highlights

- The trust is continuing to generate strong value from its diversified allocation to high-quality income-bearing securities.
- Both managers, Janus Henderson and Pandal, had very strong quarters of performance. Value was added by both managers from credit sector selection and security selection.
- No negative detractors.
