International Shares	90 – 100%

Investment objective

To grow the value of your investment over the long term by investing in a UMF providing exposure to hedged international shares.

The UMF aims to achieve a long-term total return (before fees and expenses) that exceeds the MSCI World ex Australia Index, in \$A hedged with net dividends reinvested.

Investment strategy

The Fund aims to be fully invested, providing investment exposure to international shares.

The UMF provides exposure to a concentrated portfolio of international shares by investing in securities which, in Walter Scott's opinion, offer strong and sustained earnings growth by investing in the Walter Scott Global Equity Fund. The Walter Scott Global Equity Fund will not invest in 'tobacco' securities as defined by Global Industry Classification Standards and 'controversial weapons' securities as defined by MSCI, Inc. The Walter Scott Global Equity Fund is actively managed using a benchmark unaware, fundamental, bottom-up and research-driven approach to build a portfolio of strong growth companies capable of generating wealth over long periods of time.

The investment approach combines detailed financial analysis with business and management analysis. The portfolio is constructed with a primary focus on stock-based analysis and a bias towards strong growth companies which Walter Scott believes are capable of generating high earnings growth.

The UMF may be exposed to derivatives to either obtain or reduce market exposures. It may use foreign exchange spot contracts to facilitate settlement of stock purchases. The UMF's exposure to international assets is hedged by Macquarie Investment Management Global Limited back to Australian dollars.

- 1 Any investment management costs paid to underlying fund managers (excluding performance fees) are paid out of this fee and are not an additional charge to investors. Fund expense recoveries and performance fees (if applicable) will be charged in addition to this fee. Investor advice fees may apply depending on what arrangement investors have negotiated with their financial adviser. Please refer to the latest PDS or www.ioof.com.au for further information on fees and costs.
- 2 Performance is net of management costs, expenses and tax. Performance is based on exit price to exit price for the period. Management costs, tax and other expenses are accounted for in the exit price. Past performance is not a reliable indicator of future performance. Please refer to www.ioof.com.au for updated performance information. Performance data is provided by FE fundinfo (FE fundinfo (Australia) Pty Limited, ABN 18 601 868 311).
