### Investment objective

To grow the value of your investment over the long term by investing in a UMF providing exposure to international shares.

The UMF aims to achieve attractive risk-adjusted returns over the medium to long term, while reducing the risk of permanent capital loss.

### Investment strategy

The Fund aims to be fully invested, providing investment exposure to international shares.

The UMF primarily invests in the securities of companies listed on stock exchanges around the world, but will also have some exposure to cash. The UMF can use foreign exchange contracts to facilitate settlement of stock purchases and to mitigate currency risk on specific investments within the portfolio.

The UMF may invest in a wide variety of assets, including but not limited to the following:

- options to purchase or sell any investment which is a permitted investment
- equity swaps
- foreign exchange contracts.
