Investment objective

To grow the value of your investment over the long term by investing in a UMF providing exposure to international shares.

The UMF aims to provide capital growth over the long term by investing in undervalued companies from around the world.

Investment strategy

The Fund aims to be fully invested, providing investment exposure to international shares.

The UMF primarily invests in listed securities. The UMF will ideally consist of 70 to 140 securities that the underlying fund manager believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. The underlying fund manager may short sell securities that it considers overvalued.

The UMF will typically have 50% or more net equity exposure.

The underlying fund manager may use derivatives for risk management purposes, to take opportunities to increase returns, to create a short position in a security, to establish positions in securities that may otherwise not be readily available and to aid in the management of UMF cash flows. The underlying value of derivatives may not exceed 100% of the Net Asset Value (NAV) of the UMF and the underlying value of long stock positions and derivatives will not exceed 150% of the NAV of the UMF.

The UMF's currency exposure is actively managed.

- 1 Any investment management costs paid to underlying fund managers (excluding performance fees) are paid out of this fee and are not an additional charge to investors. Fund expense recoveries and performance fees (if applicable) will be charged in addition to this fee. Investor advice fees may apply depending on what arrangement investors have negotiated with their financial adviser. Please refer to the latest PDS or www.ioof.com.au for further information on fees and costs.
- 2 Performance is net of management costs, expenses and tax. Performance is based on exit price to exit price for the period. Management costs, tax and other expenses are accounted for in the exit price. Past performance is not a reliable indicator of future performance. Please refer to www.ioof.com.au for updated performance information. Performance data is provided by FE fundinfo (FE fundinfo (Australia) Pty Limited, ABN 18 601 868 311).
